

Hello everybody! ☺

Unbelievable. It's already week 10 of this craziness...Three weeks to go until the summer holidays officially start. Usually by now, everybody should be complaining about all the exams, marks and general stress shortly before the summer holidays. And you should be making plans for your summer holidays. I really hope that you and your families find some possibilities to have a nice summer despite coronavirus restrictions.

Since this week is also a shorter week, there will be only a few tasks for you to do. We will stick to the topic of "Questions" and you will just practice them a bit more.

So, if there is anything you feel unsure about or didn't understand from last week, feel free to send me an email and ask. ☺

Stay healthy and safe and have a nice week!

Yours

P. Nachtigäller

Important: Before you do the following tasks, check the solution from last week's tasks and make sure you correct your results! This will help you to not make the same mistakes again in the tasks of this week.

Topic: Let's practice – Questions in the simple present and the simple past

Task 1: a) Do you remember the grammar from last week? If not, open your book on p. 166 and read the green box again. You can also watch the Youtube videos of last week again.

b) Open your workbook on p. 47 and do ex. 6 and 7.

c) Open your textbook on p. 56 and do ex. 7 and 8a). Make sure you check the signal words before you form the questions.

d) VOLUNTARILY: Do ex. 8b) on p. 56. Think of 4 more annoying questions your grandma or other adults could ask you at a family party.

Send me a photo of your results until Friday, 12th June, 5 pm. As always, I won't accept results that come in later. petra.nachtigaeller@ghge.nrw.schule
